has the honour to state
that the sketch of
Cephalonia is chiefly de-
fective in that it does
not clearly and accurately
show the points at
which the boundary
line takes a course &
the precise nature of
Cephalonia and Chill-
allapur (especially the former)
allapur also) require
further correcting and
revising so as to be
more specific in their
description of the line
what is wanted is a
correct description of
the exact boundary line
with reference to the ad-
joining V. Hts: & other
specific objects

The plans & proclamations
are accordingly returned
herewith - together with the
Memorials received in addition &
recommendation. By order &c
